ACAA Press Release -

May 26, 2009

ACAA Welcomes the Confirmation of John Porcari as Deputy Secretary of Transportation

The Air Carrier Association of America (ACAA), on behalf of the low fare airlines that belong to the Association along with the communities they serve and passengers who are able to travel because of low fares offered by its members, is delighted that the United States Senate has confirmed John Porcari to be Deputy Secretary of Transportation. Ed Faberman, Executive Director of the ACAA, said that "John Porcari is bringing an incredible background to the Department. As Secretary of Transportation of the state of Maryland, John has worked closely with various modes of transportation including aviation. While he was Secretary, Thurgood Marshall International Airport has expanded and is now one of the premier low fare airports in the country."

With all of the transportation matters that the Department will be addressing, John Porcari will be a critical addition to Secretary LaHood's team at the Department.

We look forward to working with John to expand the dream of airline deregulation to all markets.

Edward P. Faberman
Executive Director
